Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) The invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 19-26 are rejected under 35 U.S.C. 102(b) as being anticipated by Maltsis (US 5,497,914).

second and third spray guns (5, see Fig 1), wherein the spray guns are operatively connected to respective storage tanks and the automobile finish products are selected from the group consisting a tire treatment, a paint treatment and a windshield treatment.

With respect to claim 20, Maltsis discloses (see column 2, lines 34-37, column 2, lines 59-61 and Fig 1) teaches the air compressor is separately connected to each of the storage tanks and each of the spray guns.

As to claim 21, Maltsis discloses ground-engaging wheels (rollers 3, see Fig 1).

Regarding claim 22, in Maltsis (see Fig 5) the air compressor is connected to an air storage tank (15) and a pressure regulator (valve 23).

With respect to claims 24 and 26, Maltsis's apparatus is capable of positioned proximate an exit of a tunnel of a car wash (see the movable device Fig 1).

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Kenney et al (US 5,957,329) discloses (see Figs 1 and 3) fluid dispensing system for use at car wash; Gauthier (US 3,305,137) discloses paint supply system (see Fig 1).
